SUMMARY

As a Software Engineer, I hold a Bachelor's in Software Engineering and a Diploma in Software Development. I have experience in full stack and mobile application development, database management, and software testing. Proficient in Python, Django, and cloud computing, I design high-performance, user-centric web applications. I leverage technical expertise, problem-solving, and collaboration to deliver reliable and innovative software solutions.

EXPERIENCE

Ministry of Education | Saudi Arabia

Software Engineer Intern | January 2021 – April 2021.

- Collaborated with the programming team to develop software and fix bugs.
- Updated and optimized databases for accuracy and performance.
- Analyzed data to generate reports supporting strategic decisions.
- Resolved technical issues to maintain system performance.
- Designed user-friendly and interactive interfaces.

EDUCATION

Technical and Vocational Training Corporation (TVTC) | Saudi Arabia

Bachelor's Degree in Software Engineering and Applied Web Development | January 2025.

- Applied software engineering principles to design and maintain software solutions.
- Developed responsive web applications with optimized user experience.
- Managed databases and analyzed data for informed decision-making.
- Solved technical problems and implemented best practices for reliability.

Technical and Vocational Training Corporation | Saudi Arabia

Diploma in Software Development | 2021.

- Learned foundational programming and application development skills.
- Gained proficiency in managing databases and ensuring data accuracy.
- Developed debugging and software testing capabilities for reliable applications.
- Designed user-friendly interfaces and improved overall user experience.

CERTIFICATIONS AND COURSES

- Software Quality Testing | Tuwaiq Academy | Feb 2025.
- Basics of Microsoft Office | Technical and Vocational Training Corporation | Apr 2024.
- Python Programming | Ministry of Communications and Information Technology of Saudi Arabia | Apr 2024.
- Robotics Fundamentals and Introduction to Artificial Intelligence | Future Skills, Communications Authority | Apr 2024.
- Front End Development | Ministry of Communications and Information Technology of Saudi Arabia | Mar 2024.
- Web Development using Django & Python | Future Skills, Communications Authority | Jan 2024.
- Website Development Using Django & Python | Ministry of Communications and Information Technology of Saudi Arabia | Aug 2022.
- Excel Spreadsheet Program | Human Resources Development Fund - HRDF - KSA.
- Introduction to HTML5 | University of Michigan.
- Microsoft Office Specialist (MOS) Training | Al Khwarzmi.

SKILLS

● Technical Skills:

- Full Stack Development.
- Mobile App Development.
- DevOps Fundamentals.
- Database Management.
- Python Programming.
- Software Testing & QA.
- Cloud Computing.
- Microsoft Office Skills.

● Soft Skills:

- Communication Skills.
- Creative Problem-Solving.
- Adaptability and Flexibility.
- Teamwork.
- Creativity and Innovation.
- Time Management.
- Attention to Detail.
- Strategic Planning.
